Professional Summary

I am currently a third-year Bachelor of Science in Information Technology (BSIT) student who is passionate about web development and technology. Learning and discovering new skills, solving technical problems are the things I enjoy the most. By continuously improving my knowledge on things while also gaining experience, I hope to become a highly skilled professional in the tech industry.

Education

Elementary Education **-** Saint Isidore Children Center (SICC) 2012-2018

High School Education - Holy Trinity Academy of Calamba (HTAC) 2018-2020

High School Education - Punta Integrated School (PIS) 2020-2022

Senior High School Education - Punta Integrated School (PIS) 2022-2024 Major: ICT

College Education - City College of Calamba (CCC) 2024-Present Major: Bachelor of Science in Information Technology (BSIT)

Projects

Revilloza Apartment Management System (2026) - System Analyst

- Built the process/flow, documents for Web-Based Apartment Management System with Billing Monitoring and Tenant Notification System
- Replaced a paper-based process that caused inefficiency and lost records
- Technologies: PHP, MySQL, JavaScript.

My Website Portfolio - Web Development

- My personal portfolio website, built with HTML, CSS and JavaScript and hosted on GitHub Pages**.**
- Built a responsive, searchable portfolio from the wireframe, with project pages, dark mode and a contact form, and published it online.
- **Technologies:** HTML, CSS and JavaScript.

Website Portfolio - Wireframe/Prototype

- Wireframe and prototype screens for my personal website portfolio, designed for the course CEEL301.
- Designed the main screens in a dark blue theme with a top navigation bar, a dark mode button, and a clear call to action on each page.
- Technologies: Figma

Oak and Beans -Typography Brand Poster (2026)

- A typography brand poster for Oak and Beans Coffee House, with the tagline "Brewed slowly, enjoy it fully."
- Technologies: Canva, GIMP.

Pumpkin Spice Latte - Digital Marketing Graphics (2026)

- A set of digital marketing graphics for Brew Haven, a coffee brand, promoting its pumpkin spice latte.
- Created five pieces from one logo and one warm autumn color palette, each sized for its channel.
- Technologies: Canva, GIMP.

Citrametrine - Brand Identity (2026)

- A brand identity concept for Citrametrine Tech Solutions, an IT company, built around a rabbit, a light bulb and USB symbols.
- Designed one rabbit and light bulb mark in purple and yellow, then adapted it into vertical, horizontal and badge versions.
- Technologies: Canva, GIMP.

Experience

Civil Registrar, Barandal, Brgy. Hall Philippines 2024
Manage documents, encodes, and handle certificates.

Skills

Technical: HTML, CSS, JavaScript, PHP, MySQL, Git and GitHub, Windows Server basics, Computer Networking

Professional: Problem solving, Technical documentation, Project management, Communication and teamwork.

Certifications and Training

- Cisco Certificate
